I just spoke with him about half an hour ago....you may have already heard from Stan, but he liked the idea of opening nights and will discuss this with the counties. A call or face-to-face meeting with all parties may be the next step. He understands the need to resolve this quickly, and thinks the end of the week is reasonable.

Also, he can put pressure both on the counties and on the machine shops to get the repair work done ASAP, so the 30 day timeframe may actually end up being reasonable.

So, if I speak to him again, is it proper to address him as Commander Kassoff?

Sep 23. The CPG is ok with the current scope - I know you are but please try to control the PAs and their desire to add locations or delete CPG's. Any significant changes are likely to reopen the discussion of locations and numbers.

Any word from CDR Kassoff - I can tell you from personal experience that we Commanders are very busy people.... ;-). ....

Thanks, Rob - when did you want to start the program? I think you told me a specific date the other day.

**Importance:** High

Stephanie:

Here is the document, without appendices (because of their size). AECOM will now start loading the complete document, with appendices, onto the LPR SharePoint Site.

The field (Appendix A) and laboratory (Appendix B) SOPs have been updated (annual updates) so we will be loading them onto the LPR SharePoint Site. AECOM are breaking these into loadable sizes, so it will take us a little while to load them.

Please contact us with any questions.

R/

Rob
